„Our goal was to create a swivel chair with a soft and friendly silhouette, without showing its technical details“.

Mugi Yamamoto
Product designer, ITO Design

Work-life balance

Work–life balance necessary now and in the future

Keeping the balance between work and home life, between commitments and relaxation, we created a chair that fits all spaces. Our goal was to create a product that would fulfil the needs of anybody who balances their work and family life and needs convenient, comfortable, ergonomic and lightweight products in both of those areas.

Ellie^{Pro}

There are eight products in the family, all of which will fit into any interior, making it all the more beautiful. The chair, with its many configuration options, fashionable colours of the metal parts and unique shape of the seat, attracts your attention and fulfils all your needs. It is user-friendly and its form is modern, elegant and simple.

Office vs home

Ellie^{Pro} is a synergy of a simple form and functionality. It is both a comfortable, soft chair and an ergonomic office chair. The model with a four- or five-arm base will easily fit into any office or home.

Precision and attention to detail are particularly important in joining different colours of fabric. The optional leather insert on the armrests connected with the seat is both a unique and practical idea.

Piety.
Simplicity.
Possibilities

Living room vs conference

Faced with the challenge of creating a chair that will function well both in the office and at home, we had to make sure it has a unique appearance and is functional. This was achieved, for instance, by fitting the product with a rod frame.

Good does not have to mean complicated

One chair, two faces - the high and low backrests and the intuitive use of the Synchro Self mechanism with one lever. These solutions will satisfy even the most demanding of users.

Wood - a timeless trend

The Ellie^{Pro} with wooden legs is the best option for spaces where elegance is needed. This most refined and exquisite of materials will bring an element of luxury, whilst still looking solid.

A close-up photograph of the lower portion of a modern chair. The chair features a plush, deep red fabric seat and backrest. The base is a polished, gold-colored metal cylinder from which four thin, tapered legs extend outwards at an angle. Each leg is capped with a small, dark, circular foot. The chair is set against a white background with large, soft-edged, light gray circular shapes. The floor is a light gray, and the chair's legs cast a subtle shadow.

The versatility, minimalism and functionality of the unique Ellie^{Pro} chair combined with its distinctive design are a recipe for the perfect chair. Thanks to the wide range of fabric, two heights of the backrest and various types of bases in modern colours, this one product will help you arrange any space.

Tapicerka

Rodzaj i kolor

SYMBOL

Istnieje możliwość doboru różnych kolorów tapicerki w obrębie tej samej tkaniny według następującego schematu:

A – wewnętrzna część kubetka, B – zewnętrzna część kubetka.
Przy zamówieniu modelu takiego rodzaju należy wyraźnie wskazać symbole kolorów tkanin, np.: ST-5/ST-6 gdzie ST-5 – A, ST-6 – B).

Profim and the Environment

In our operation we follow the sustainability principle. We operate in a responsible manner for the benefit of our customers, employees, suppliers, and the local community, but we always respect the environment.

In order to achieve our goals, we have implemented Environmental Management System based on the ISO 14001 standard, which allows for a comprehensive approach to ecology. We take into consideration and evaluate the way Violle products affect the environment during their entire life cycle.
