Philo

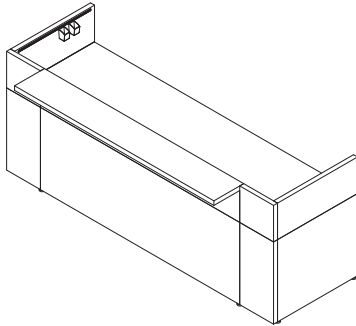

PHILO

is a system of reception counters featuring melamine-faced or embossed panels, which integrates with any type of desk in the ALEA range.

01

Structure

The front and sides of the reception desk comprise particle board panels divided into two coupled sections with which to create different colour schemes.

The panels come in the following finishes:

- 40mm thick melamine-faced particle board.
- 40mm thick melamine-faced particle board embossed with water-based paint on both sides.

Both sides of the side panels have an aluminium tool rail for the attachment of accessories. They can be provided with a 4mm thick, H.290mm acrylic upper screen held in place by a bottom aluminium profile with external section of 60x22mm.

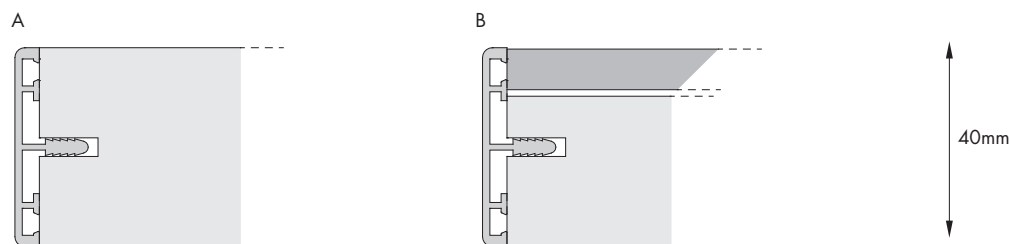

The entire composition stands on levelling feet with millimetric regulation (+25mm).

02

Reception desk tops

The following variants of reception desk tops are available:

- 40mm thick melamine-faced particle board with polished extruded aluminium profile (A);
- 8mm thick extra clear toughened glass lacquered on the under side and anti fingerprint treated on the top side if required. The glass is supported by a 30mm thick melamine-faced panel framed by a polished extruded aluminium profile. Total thickness 40mm (B).

03

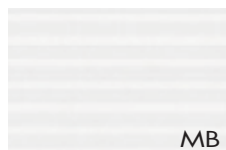

Green notes

All particle board panels used for our furniture are 100% FSC, comply with CARB 2 certification, and meet ANSI/BIFMA X7.1-2011 requirements and LEED requisites for IEQ 4.5 credits for low emission materials.
