|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>product description</b> | <p>21V - cantilever, low backrest, armrests (stackable version)</p> <p>21VN - cantilever, low backrest, armrests (non-stackable version)</p> <p>10F - conference, swivel, high backrest, 4-star base</p> <p>10FZ - conference, swivel, high backrest, Rocker mechanism, 4-star base</p> <p>20F - conference, swivel, low backrest, 4-star base</p> <p>20FZ - conference, swivel, low backrest, Rocker mechanism, 4-star base</p> |
| <b>mechanism</b>           | <p>Version 10FZ/20FZ</p> <p>Z - Rocker mechanism - it's a mechanism that enables tilting the shell back and forward, the front tilt eliminates pressure on the back of thighs whilst working at the desk; the mechanism locks in one position only when tilting back; at an angle of <math>\pm 12^\circ</math>, the chair tilts forward at <math>3^\circ</math></p>                                                              |
| <b>base</b>                | <p>Version 10F/10FZ/20F/20FZ</p> <p>Four-star aluminium base:</p> <ul style="list-style-type: none"> <li>- chrome (polished aluminium)</li> </ul>                                                                                                                                                                                                                                                                                |
| <b>frame</b>               | <p>Version V/VN</p> <p>Metal tube with cross section fi 25 mm.</p> <p>Variants:</p> <ul style="list-style-type: none"> <li>- shiny chrome (chrome)</li> </ul>                                                                                                                                                                                                                                                                    |
| <b>armrest</b>             | <ul style="list-style-type: none"> <li>- PU - aluminium armrest , polyurethane armpad (only in swivel versions)</li> <li>- O - aluminium armrest, upholstered armpad: <ul style="list-style-type: none"> <li>- models with leather upholstery - armpad upholstered with the same colour</li> <li>- models with fabric or Softline upholstery - black leather on the pad</li> </ul> </li> </ul>                                   |
| <b>glides</b>              | <ul style="list-style-type: none"> <li>- standard - hard glides (for soft floors)</li> </ul>                                                                                                                                                                                                                                                                                                                                     |

- option - felt glides (for hard floors)
- option - teflon glides (universal)

**seat** Version V/VN  
Metal frame; cold molded foam - density 65 kg/m3

Version 10F/10FZ/20F/20FZ  
Metal frame; cold molded foam - density 80 kg/m3.

**backrest** Version V/VN  
Flexible; metal frame; cold molded foam - density 90 kg/m3.

Version 10F/10FZ/20F/20FZ  
Metal inside frame equipped with wave springs; cold molded foam:  
- high backrest - density 75 kg/m3  
- low backrest - density 80 kg/m3

**net weight** 21V / 21VN - 12,5 kg  
10F/10FZ - 22,0 kg  
20F/20FZ - 21,0 kg

**gross weight** 21V / 21VN - 16,5 kg  
10F/10FZ - 28,0 kg  
20F/20FZ - 26,0 kg

**stacking** 2 pcs. (only V version)
